Reference No. : **LR-MOHSW-346525-CW-RFB**

The Government of Liberia desire to use portion of its Ebola Emergency Response Project's grant equivalent of US\$ 6 million towards the remaining construction works of the phase one design of the New Redemption Hospital located in Upper Caldwell, Montserrado County, hereinafter "the Project". The Project duration is only Eight (8) months. Primarily, the US\$6 million will be applied towards works that include concrete, metals, wood, plastics and composites, electrical services, plumbing services, thermal and moisture protection, and finishes. The Ministry of Health (MoH) is the implementation agency responsible for project execution and results monitoring. The current rate of completion is estimated at 54% and the Ministry of Health intends to apply the proceeds to payments of a portion of the remaining works. Under this contract, the Borrower shall process the payments using payment methods, as defined in the World Bank's Disbursement Guidelines for Investment Project Financing. In addition to the above, there will be an opportunity to tender for the final completion of the phase one construction through the use of resources from another project under the portfolio. This phase of the works will include exterior site improvements, heating ventilation and air conditioning/mechanical services, some electrical and general services. Depending on the performance of the contractor, it is most likely that said contractor might have the advantage of qualifying for the implementation of the final phase one works.
